Message:

I urge you to veto HB-589. This bill started out with great expectations from the environmental community, but in the end was corrupted by the NC Republican legislature and Duke Energy through back-room dealings. The bill allows the electric utility companies (Duke Energy) to control the amount of renewable energy in North Carolina while providing token help to small renewable energy generators. The worst part of the bill is the 18 month moratorium on wind-energy projects. The proponent of the moratorium, Harry Brown, believes he knows more than military professionals who have stated that they do not need help from the legislature regarding the location and size of wind-energy projects.  
Again, please VETO HB-589.
